- Lead Projects and Establish new technologies and trends in Human Resources.
- Develop and Implement hand-made HR related software tools and apps.

Interests

In my spare time, I enjoy doing Competitive Programming and I have active profiles in HackerRank, Kattis, HackerEarth and CodeChef.

I love Music, from Classical to Rock. I also play different instruments, but the guitar is my favorite.

Videogames were my first passion as a child. My most played genres are Adventure, Role-Playing and Arcade.

Travel and getting to know new places and people is something that I enjoy. Someday, I will go all the way around the globe!
